

Find Our Way

Oh so many years ago this summer
We left all we knew in a perfect kiss
Couldn't even hear the rolling thunder
Of all the lives we changed for this

How'd we get from there to be so busy
Barely take a moment in the day to day
I don't have the time to look so pretty
I'm not of the mind to make love stay

*Will we find our way
Though the endlessness of every day
Back to each other and a sweeter place
Will we find our way*

Everybody starts out with forever
Never with a worry or a spark of doubt
Then the hottest fire turns to embers
Turn your back and the flame burns out

*Will we find our way
Though the endlessness of every day
Back to each other and a sweeter place
Will we find our way*

We all say it's not going to happen to us
Life comes rollin' like a runaway truck
And like everybody else
We're putting each other on the shelf

We know we can't get back to where we sartered
Passion seems to thrive on mystery
Come on over here, sit close my darling
Take my hand and talk to me

*Let's find our way
From the distant and the silent days
Past all the habits and the bitter taste
Back to each other and a sweeter place
Back to each other and a warm embrace
Let's find our way*
