

## Rolling River

Yesterday the light was different  
Ever grey and green and gold  
We watched the days race quickly by  
And we let the rest unfold

Then we saw fear on the horizon  
Thunder towards us like the wind  
We seal the doors and windows  
And we steel ourselves to win

**There's a rolling river to carry us home  
We are cold and weary  
But never alone  
Made of tears and courage  
Flesh and bone  
Oh we built this boat to carry us home**

All in turn we lead and follow  
Ever learning, never done  
Through the pain and wind and rain  
We dig and pull as one

We are leaves upon the water  
We are survivors of the storm  
There's faith and trust in each of us  
And it keeps us steady on

**There's a rolling river to carry us on  
She is deep and mighty  
Stirring and strong  
Oh we ride her current  
And sing her song  
Oh we built this boat to carry us on**

**There's a rolling river to carry us home  
We are cold and weary  
But never alone  
Made of tears and courage  
Flesh and bone  
Oh we built this boat to carry us home**

**There's a rolling river to carry us on  
She is deep and mighty  
Stirring and strong  
Oh we ride her current  
And sing her song  
Oh we built this boat to carry us on**
